House of U produces sustainable fashion and interior products on demand and enables you to outsource your print production for high quality textile prints, also in small quantities, with a short delivery time. By using digital printers, especially designed for the direct printing of fabrics, we are able to produce extraordinary prints and products.

Our microfactory

Print. Your design is digitally printed onto the fabric using the latest sustainable printing techniques, ensuring vibrant colors and a long-lasting result.

Cut. The fabric is cut precisely according to the design, ensuring perfect alignment of the pattern or logo.

Sew. The individual pieces are carefully sewn together. Strong, neat, and with attention to detail.

T-shirts

Boost your brand with custom t-shirts that people actually want to wear. Choose an eye-catching logo, personalized text or all-over pattern, we'll make your ideas a reality. Whether you're building brand awareness or launching a new merch line, our custom t-shirts make it easy!
